SUBJECT INDEX TO VOLUME 94

ABDOMEN, Acute appendicitis in aged, 239; Acute abdominal injuries, ed. 626
ACD solution, Closed gravity technique for preservation of whole blood in, utilizing plastic equipment, 687
Adenocarcinoma, of large intestine associated with chronic ulcerative colitis, clinical and pathologic features of 73 cases, 302
Adrenal preparations, Influence of anesthesia, operation, and obstetrical delivery upon patients with adrenal cortical insufficiency, 455
Adrenals, Influence of anesthesia, operation, and obstetrical delivery upon patients with, cortical insufficiency, 455
Aged, Acute appendicitis in, 239; Acute intestinal obstruction in elderly patients, 481
American College of Surgeons, Inter-American session in São Paulo, Brazil, February 10 to 12, 1953, 512; Clinical Congress, Preliminary plans for the 38th, The Waldorf-Astoria, New York, September 22 to 26, 1952, 638; 765
Anastomosis, arteriovenous, Experimental studies on reversal of circulation in lower extremity, 206; Study of growth of aortic-pulmonary, 358
Anatomy, Variations in formation and vascular relationships of bile ducts, 669
Anemia, in pregnancy, Hematologic response of pregnant woman to intravenous saccharated iron oxide, 513
Anesthesia, Influence of, operation, and obstetrical delivery upon patients with adrenal cortical insufficiency, 455
Aneurysm, Treatment of, with fibroblastic agents, experimental and clinical studies with use of sodium dicetyl phosphate, 543
Antibacterial substances, in human semen and prostatic fluid, 662
Antibiotics, Treatment of casualties in atomic disaster, ed. 371; Further experiences with local and systemic bacitracin in treatment of various surgical and neurosurgical infections and related medical infections, 401
Anus, Radical abdominal proctosigmoidectomy with preservation of anal sphincter, 550
Aorta, Aortography, its interpretation and value, report of 200 cases, 83; Study of growth of aortic-pulmonary anastomoses, 358; Ligation of inferior mesenteric artery at, in resections for carcinoma of sigmoid and rectum, 526; Coarctation of lower thoracic and abdominal, immediately proximal to celiac axis, 561
Aortic valve, Experimental study of, homografts, 129
Aortography, its interpretation and value, report of 200 cases, 83
Appendicitis, Acute, in aged, 239
Arm, swollen, Myolymphangioplasty for prevention and relief of, preliminary report, 65
Arteries, Arterial grafts, ed. 115; surgery, Experimental study of aortic valve homografts, 129; coronary, Relationship between biliary tract and, disease, 152; mesenteric, Clinical study of ligation of inferior, in left colon resection, 223; pulmonary, Study of growth of aortic-pulmonary anastomoses, 358; Physiological mechanism for death in massively bleeding peptic ulcer, 433; inferior mesenteric, Ligation of, of aorta in resections for carcinoma of sigmoid and rectum, 526; splenic, Coarctation of lower thoracic and abdominal aorta immediately proximal to celiac axis, 561; hepatic, Variations in formation and vascular relationships of bile ducts, 669
Asphyxia, by tracheobronchial secretions, 57
Aspiration, Penetrating wounds of heart, report of 81 cases, 605
Atomic warfare, Treatment of casualties in atomic disaster ed. 371

BACITRACIN, Further experiences with local and systemic, in treatment of various surgical and neurosurgical infections and certain related medical infections, 401
Bile ducts, Transduodenal reconstruction of, 53; common, stone, Duodenotomy for, ed. 250; common, Surgical treatment of pancreatitis, ed. 369; Value of peroperative manometric and roentgenographic examination in diagnosis of pathologic changes and functional disturbances of biliary tract, 385; stones, Choledochostomy with cholangiography, review of 50 cases, 394; Variations in formation and vascular relationships of, 669
Biliary tract, Relationship between, and coronary artery disease, 152; Causes of death following, surgery for nonmalignant disease, 283; Value of peroperative manometric and roentgenographic examination in diagnosis of pathologic changes and functional disturbances of, 385
Biopsy, Histopathology and cytology of cervix in pregnancy, 10
Bladder, Treatment of urinary stress incontinence, with results of 117 patients treated by active exercise of pubococcygei, 179
Blood, volume, in pre-eclampsia as determined with P^{32} labeled red blood cells, 21; circulation, Experimental studies on reversal of, in lower extremity, 206; platelet count, Splenectomy for fulminating episode of essential thrombocytopenic purpura, 229; fetal, maternal, Origin and significance of macroscopic intervillous coagulation hematomas (red infarcts) of human placenta, 257; coagulation, Critical evaluation of antithrombin test for venous thrombosis, 297; amylase, Persistent elevation f serum amylase in acute pancreatitis, report of 5 cases, 334; Hematologic response of pregnant woman to intravenous saccharated iron oxide, 513; plasma, Wound healing, heat turbidity index and methylene blue reduction time of, 577; circulation, Effect of intravenous administration of meperidine upon, of man and upon circulatory response to tilt, 591; Closed gravity technique for preservation of whole, in ACD solution utilizing plastic equipment, 687; volume, Changes in, following administration of dextran—determined by P^{32} labeled cells, 712
Blood pressure, Studies on bone marrow cavity of dog, fat embolism and marrow pressure, 215; Physiological mechanism for death in massively bleeding peptic ulcer, 433; Portacaval shunting for portal hypertension, 443; Regeneration of liver in dog after partial hepatectomy, role of venous circulation, 491
Blood vessels, peripheral vascular disease, Aortography, its interpretation and value, report of 200 cases, 83; Experimental studies on reversal of circulation in lower extremity, 206; surgery, Nutrition of, grafts India ink injection study of their vascularization, 311; surgery, Study of growth of aortic-pulmonary anastomoses, 358; surgery, anastomosis, Portacaval shunting for portal hypertension, 443; Treatment of aneurysms

with fibroblastic agents, experimental and clinical studies with use of sodium dicetyl phosphate, 543
Bone, marrow, Studies on, cavity of dog, fat embolism and marrow pressure, 215; graft, Double onlay, in treatment of delayed union and nonunion, 426; fractures, Effects of known compression forces on, healing, 743
Book Shelf, Adolf, 120; No leper's clapper, Robert the Bruce, 1274–1329, 373; "Poor Richard," 630
Breast, Roentgenology and pathology of cyclic disturbances in, with special reference to their surgical diagnosis, 91; Cancer, mortality, failure of control through case-finding programs (summary), 173; Note on estimates of rate of development of metastasis in patients with cancer of, 641; Cancer of, analysis of frequency, distribution and mortality at University of California Hospital, 1918 to 1947, inclusive, 645
Bronchus, Pulmonary surgical salvage by bronchial resection, 347; Reconstruction of tracheobronchial tree with resection of lung, carina, and lower trachea, experimental study, 570
Bruce, Robert, No leper's clapper, 1274–1329, 373
Burns, Early management of severely burned patient, 273; Studies on flash, threshold, 317; Studies on flash, protective effects of certain fabrics, 497

CANCER, oral, Combined neck and jaw resection for intraoral carcinoma, 1; Results of radical surgical extirpation in treatment of carcinoma of esophagus and cardia, with 5 year survival statistics, 46; of esophagus, Analysis of 100 cases of squamous cell carcinoma of esophagus—part II, with special reference to its theoretical curability, 110; mortality, failure of control through case-finding programs (summary), 173; Adenomatous polyps of colon and rectum, challenge in, prophylaxis, 195; of rectum, rectosigmoid, sigmoid, Clinical study of ligation of inferior mesenteric artery in left colon resections, 223; Cervix ring biopsy technique, 270; Adenocarcinoma of large intestine associated with chronic ulcerative colitis, clinical and pathologic features of 73 cases, 302; Silent, of lung and tumors of chest, ed. 505; Ligation of inferior mesenteric artery at aorta in resections for carcinoma of sigmoid and rectum, 526; Elimination of untoward radiation sequelae in treatment of carcinoma of uterine cervix, 539; of rectosigmoid, Radical abdominal proctosigmoidectomy with preservation of anal sphincter, 550; of larynx, Roentgen therapy of carcinoma of larynx, 598; of breast, Note on estimates of rate of development of metastasis in patients with, 641; of breast, analysis of frequency, distribution and mortality at University of California Hospital, 1918 to 1947, inclusive, 645; Observations on use of artificially induced progestational state as preoperative adjunct to radical pelvic surgery, 703; Role of radiation and surgery in management of uterine carcinoma, 715; Physiologic resection of right colon, 722; diagnosis, Evaluation of cytologic examination of body secretions in, ed. 755
Carcinoma, see Cancer
Cardiovascular system, Effect of stimulation of lower intrathoracic portion of vagus nerve on, of dogs, 23
Cells, Cytologic interpretation of prostatic smear, 69; Cytologic patterns in benign and malignant gastric esophageal lesions, 733; cancer, Evaluation of cytologic examination of body secretions in, ed. 755
Chest, tumors of, Silent cancer of lung and, ed. 505
Cholangiography, Choledochostomy with, review of 50 cases, 394
Choledochostomy, with cholangiography, review of 50 cases, 394
Circulation, see Blood, circulation
Coarctation, of lower thoracic and abdominal aorta immediately proximal to celiac axis, 561
Cold, low ambient temperature, Studies in experimental frostbite—IX, rapid thawing and prolonged local cooling in treatment of frostbite resulting from exposure to, 475
Colitis, Adenocarcinoma of large intestine associated with chronic ulcerative, clinical and pathologic features of 73 cases, 302
Colon, Adenomatous polyps of, and rectum, challenge in cancer prophylaxis, 195; Clinical study of ligation of inferior mesenteric artery in left, resections, 223; Ligation of inferior mesenteric artery at aorta in resections for carcinoma of sigmoid and rectum, 526; Radical abdominal proctosigmoidectomy with preservation of anal sphincter, 550, right, Physiologic resection of, 722
Compression forces, Effect of known, on fracture healing, 743
Cytology, Histopathology and, of cervix in pregnancy, 10; interpretation of prostatic smear, 69; Cervix ring biopsy technique, 270; patterns in benign and malignant gastric esophageal lesions, 733; Evaluation of, of body secretions in diagnosis of cancer, ed. 755

DEATH, Causes of, following biliary tract surgery for nonmalignant disease, 283; Physiological mechanism for, in massively bleeding peptic ulcer, 433
Dextran, Changes in blood volume following administration of,—determined by P^{32} labeled red cells, 712
Diagnosis, Roentgenology and pathology of cyclic disturbances in breast, with special reference to their surgical, 91; Cervix ring biopsy technique, 270; Surgical treatment of traumatic esophageal perforation, 337; Acute abdominal injuries, ed. 626; differential, Bedside urological x-ray examination of severely injured patient, 693
Diverticulum, calyceal, Problem of, 77
Drugs, vasodepressor, vasopressor, Studies on bone marrow cavity of dog, fat embolism and marrow pressure, 215
Duodenotomy, for common duct stone, ed. 250
Duodenum, Pancreaticoduodenectomy with resection of portal vein in Macaca mulatta monkey and in man 31; Transduodenal reconstruction of bile ducts, 53

ECLAMPSIA, Blood volume in pre-eclampsia as determined with P^{32} labeled red blood cells, 21
Embolism, fat, Studies on bone marrow cavity of dog, and marrow pressure, 215
Esophagus, Results of radical surgical extirpation in treatment of carcinoma of, and cardia, with 5 year survival statistics, 46; Analysis of one hundred cases of squamous cell carcinoma of,—part II, with special reference to its theoretical curability, 110; Surgical treatment of traumatic esophageal perforation, 337; Importance of esophagogastric valve mechanism in surgery of stomach and, ed. 502; Cytologic patterns in benign and malignant gastric esophageal lesions, 733; Esophageal bleeding, ed. 757
Estradiol, Effective control of surgical menopause by, pellet implantation at time of surgery, 323
Exercise, of pubococcygeus muscles, Treatment of urinary stress incontinence, with results of 117 patients treated by active, of pubococcygei, 179

FABRICS, Studies on flash burns, protective effects of certain, 497
Femur, Studies on bone marrow cavity of dog, fat embolism and marrow pressure, 215

Fibroblastic agents, Treatment of aneurysms with, experimental and clinical studies with use of sodium dicetyl phosphate, 543
Fibula, Kuntscher nail in treatment of fractures of tibia and, 189
Fistula, duodenal, Duodenotomy for common duct stone, ed. 250; Urologic procedures in diagnosis of, 709
Fixation, mortise and tenon, Thoracic cage closure after thoracotomy or thoracoabdominal exploration, 365
Food and drug administration, LD 50 test, Further experiences with local and systemic bacitracin in treatment of various surgical and neurosurgical infections and certain related medical infections, 401
Foot, flatfoot, Operative treatment of, 136
Forearm, Employment of beaded wires in fractures of, 200
Fractures, Kuntscher nail in treatment of, of tibia and fibula, 189; Employment of beaded wires in, of forearm, 200; Double onlay bone graft in treatment of delayed union and nonunion, 426; Intramedually nailing in presence of infection, experimental study in dogs, 727; healing, Effects of known compression forces on, 743
Franklin, Benjamin, "Poor Richard," 630
Frostbite, Studies in experimental,—IX, rapid thawing and prolonged local cooling in treatment of, resulting from exposure to low ambient temperature, 475

GALLBLADDER, Relationship between biliary tract and coronary artery disease, 152; calculus, Value of peroperative manometric and roentgenographic examination in diagnosis of pathologic changes and functional disturbances of biliary tract, 385; Choledochostomy with cholangiography, review of 50 cases, 394; Gallstone ileus, report of 8 cases, 469
Gallstones, ileus, report of 8 cases, 469
Gastrectomy, total, Late results after, 519
Genitourinary tract, infections, Antibacterial substances in human semen and prostatic fluid, 662
Grafts, arterial, ed. 115; valvular, Experimental study of aortic valve homografts, 129; arterial, Nutrition of blood vessel, India ink injection study of their vascularization, 311; bone, Double onlay, in treatment of delayed union and nonunion, 426

HEART, Relationship between biliary tract and coronary artery disease, 152; Penetrating wounds of, report of 81 cases, 605
Heat turbidity index, Wound healing, and methylene blue reduction time of plasma, 577
Hematoma, intraplacental, Origin and significance of macroscopic intervillous coagulation, (red infarcts) of human placenta, 257
Hemoglobin, Hematologic response of pregnant woman to intravenous saccharated iron oxide, 513
Hemorrhage, Simultaneously occurring placenta previa and placenta accreta, 141; Physiological mechanism for death in massively bleeding peptic ulcer, 433; of esophageal varices, Esophageal bleeding, ed. 757
Hepatectomy, partial, Regeneration of liver in dog after, role of venous circulation, 491
Histopathology, and cytology of cervix in pregnancy, 10
Hitler, Adolf, 120
Hormones, steriod, Effective control of surgical menopause by estradiol pellet implantation at time of surgery, 323
Hypertension, portal, Portacaval shunting for, 443
Hyperthyroidism, in pregnancy, 103

ILEUS, Gallstone, report of 8 cases, 469
Incontinence, Treatment of urinary stress, with results in 117 patients treated by active exercise of pubococcygei, 179; urinary, Urologic procedures employed in diagnosis of urinary-vaginal fistulas, 709
Infarct, red, Origin and significance of macroscopic intervillous coagulation hematomas, of human placenta, 257
Infections, Further experiences with local and systemic bacitracin in treatment of various surgical and neurosurgical, and certain related medical, 401; Intramedullary nailing in presence of, experimental study in dogs, 727
Injection, India ink, Nutrition of blood vessel grafts, study of their vascularization, 311
Injuries, Acute abdominal, ed. 626; multiple, Bedside urological x-ray examination of severely injured patient, 693
Instruments and apparatus, transventricular valvulotome, Experimental study of aortic valve homografts, 129; Kuntscher nail, in treatment of fractures of tibia and fibula, 189; beaded wires, Employment of, in fractures of forearm, 200; for collection, storage and infusion of blood, Closed gravity technique for preservation of whole blood in ACD solution utilizing plastic equipment, 687; for bedside x-ray examination, urological, of severely injured patient, 693; calibrated springs for compression, Effects of known compression forces on fracture healing, 743
Intestines, Adenomatous polyps of colon and rectum, challenge in cancer prophylaxis, 195; Adenocarcinoma of large, associated with chronic ulcerative colitis, clinical and pathologic features of 73 cases, 302; obstruction, Gallstone ileus, report of 8 cases, 469; obstruction, Acute intestinal, in cases of elderly patients, 481
Iron oxide, saccharated, Hematologic response of pregnant woman to intravenous, 513

JAW, Combined neck and, resection for intraoral carcinoma, 1

KIDNEY, Problem of calyceal diverticulum, 77
Knee, Pneumoarthrography of, 361

LABOR, Simultaneously occurring placenta previa and placenta accreta, 141; Influence of anesthesia, operation, and obstetrical delivery upon patients with adrenal cortical insufficiency, 455
Larynx, carcinoma of, Roentgen therapy of, 598
Leg, Experimental studies on reversal of circulation in lower extremity, 206
Liver, Causes of death following biliary tract surgery for nonmalignant disease, 283; Physiological mechanism for death in massively bleeding peptic ulcer, 433; Portacaval shunting for portal hypertension, 443; Regeneration of, in dog after partial hepatectomy, role of venous circulation, 491; Variations in formation and vascular relationships of bile ducts, 669
Lungs, emphysema, atelectosis, Asphyxia by tracheobronchial secretions, 57; surgery, Pulmonary resection in treatment of tuberculosis, ed. 117; surgery, Pulmonary surgical salvage by bronchial resection, 347; Silent cancer of, and tumors of chest, ed. 505; cancer of, Silent, and tumors of chest, ed. 505; Reconstruction of tracheobronchial tree with resection of, carina, and lower trachea, experimental study, 570

MANOMETRIC examination, Value of peroperative and roentgenographic, in diagnosis of pathologic changes and functional disturbances of biliary tract, 385

Mastectomy, radical, Myolymphangioplasty for prevention and relief of swollen arm, preliminary report, 65
Medicine, Hush of retirement, ed. 628
Menopause, surgical, Effective control of, by estradiol pellet implantation at time of surgery, 323
Meperidine, Effect of intravenous administration of, upon circulation of man and upon circulatory response to tilt, 591
Metastasis, Note on estimates of rate of development of, in patients with cancer of breast, 641
Methylene blue, reduction time, Wound healing, heat turbidity index and, of plasma, 577
Mortality, Cancer, failure of control through case-finding programs (summary), 173; Note on estimates of rate of development of metastasis in patients with cancer of breast, 641; Cancer of breast, analysis of frequency, distribution and, at University of California Hospital, 1918 to 1947, inclusive, 645
Mouth, Combined neck and jaw resection for intraoral carcinoma, 1
Muscles, pubococcygeus, Treatment of urinary stress incontinence, with results of 117 patients treated by active exercise of pubococcygei, 179
Myolymphangioplasty, for prevention and relief of swollen arm, preliminary report, 65

NAILING, Intramedullary, in presence of infection, experimental study in dogs, 727
Neck, Combined, and jaw resection for intraoral carcinoma, 1
Nerve, vagus, Effect of stimulation of lower intrathoracic portion of, on cardiovascular system of dogs, 23
Neurofibroma, dumbbell, (hourglass), affecting spinal cord, 161
Nutrition, Early management of severely burned patient, 273

OPERABILITY, determination of, Need for greater accuracy in, ed. 248

PANCREAS, Pancreaticoduodenectomy with resection of portal vein in Macaca mulatta monkey and in man, 31; Persistent elevation of serum amylase in acute pancreatitis, report of 5 cases, 334; Surgical treatment of pancreatitis, ed. 369
Pancreatic ducts, ligation, Study of etiology of acute pancreatitis, 749
Pancreaticoduodenectomy, with resection of portal vein in Macaca mulatta monkey and in man, 31
Pancreatitis, Persistent elevation of serum amylase in acute, report of 5 cases, 334; Surgical treatment of, ed. 369; Study of etiology of acute, 749
Pancreozymin, Study of etiology of acute pancreatitis, 749
Pathology, Roentgenology and, of cyclic disturbances in breast, with reference to surgical diagnosis, 91
Pelvis, Observations on use of artificially induced progestational state as a preoperative adjunct to radical pelvic surgery, 703
Peptic ulcer, Physiological mechanism for death in massively bleeding, 433; Nonoperative treatment of perforated, 464; Consideration of present status of simple suture in treatment of acute perforated gastroduodenal ulceration, 581
Pericardium, Penetrating wounds of heart, report of 81 cases, 605
Physicians, Hush of retirement, ed. 628
Placenta, accreta, previa, Simultaneously occurring, 141; Origin and significance of macroscopic intervillous coagulation hematomas (red infarcts) of human, 257
Pneumoarthrography, of knee, 361
Polyps, adenomatous, of colon and rectum, a challenge in cancer prophylaxis, 195; Malignant, of rectum and sigmoid, therapy based upon pathologic considerations, 619
Portal vein, Pancreaticoduodenectomy with resection of, in Macaca mulatta monkey and in man, 31; Portacaval shunting for portal hypertension, 443; Regeneration of liver in dog after partial hepatectomy, role of venous circulation, 491; Variations in formation and vascular relationships of bile ducts, 669
Position, tilting, Effect of intravenous administration of meperidine upon circulation of man and upon circulatory response to tilt, 591
Pre-eclampsia, Blood volume in, as determined with P^{32} labeled red blood cells, 21
Pregnancy, Histopathology and cytology of cervix in, 10; Hyperthyroidism in, 103, Origin and significance of macroscopic intervillous coagulation hematomas (red infarcts) of human placenta, 257; Hematologic response of pregnant woman to intravenous saccharated iron oxide, 513
Progesterone, Observations on use of artificially induced progestational state as preoperative adjunct to radical pelvic surgery, 703
Prostate, cancer, Cytologic interpretation of prostatic smear, 69
Prostatic fluid, Antibacterial substances in human semen and, 662
Protection, Studies on flash burns, protective effects of certain fabrics, 497
Purpura, thrombocytopenic, Splenectomy for fulminating episode of essential, 229

RADIANT energy, Studies on flash burns, threshold burns, 317
Radiation, injuries, Treatment of casualties in atomic disaster, ed. 371; therapy, Tumors of testicle, irradiation therapy, 535; sequelae, Elimination of untoward, in treatment of carcinoma of uterine cervix, 539; Role of, and of surgery in management of uterine carcinoma, 715
Radioactive phosphorus (P^{32}), Blood volume in pre-eclampsia as determined with, labeled red blood cells, 21; Changes in blood volume following administration of dextran—determined by, labeled red cells, 712
Radius, Employment of beaded wires in fractures of forearm, 200
Rectum, Adenomatous polyps of colon and, a challenge in cancer prophylaxis, 195; carcinoma of, Clinical study of ligation of inferior mesenteric artery in left colon resections, 223; carcinoma of, Ligation of inferior mesenteric artery at aorta in resections for, sigmoid and, 526; Radical abdominal proctosigmoidectomy with preservation of anal sphincter, 550; Malignant polyps of, and sigmoid, therapy based upon pathologic consideration, 619
Retirement, Hush of, ed. 628
Ribs, Thoracic cage closure after thoracotomy or thoracoabdominal exploration, 365
Roentgen therapy, of carcinoma of larynx, 598
Roentgenography, Value of peroperative manometric and roentgenographic examination in diagnosis of pathologic changes and functional disturbances of biliary tract, 385; Bedside, urological x-ray examination of severely injured patient, 693
Roentgenology, diagnoses, and pathology of cyclic disturbances in breast, with special reference to their surgical, 91

SECRETIONS, mucoid, Asphyxia by tracheobronchial, 57
Semen, Antibacterial substances in human, and prostatic fluid, 662
Shock, burn, Early management of severely burned patient, 273; Acute abdominal injuries, ed. 626
Shunt, Portacaval, shunting for portal hypertension, 443; portacaval, Regeneration of liver in dog after partial hepatectomy, role of venous circulation, 491
Sigmoid, carcinoma of, Ligation of inferior mesenteric artery at aorta in resections for, and rectum, 526; Malignant polyps of rectum and, therapy based upon pathologic considerations, 619
Sodium dicetyl phosphate, Treatment of aneurysms with fibroblastic agents, experimental and clinical studies with use of, 543
Sphincter, anal, Radical abdominal proctosigmoidectomy with preservation of, 550
Spinal cord, tumor, Dumbbell (hourglass) neurofibromas affecting, 161
Spleen, excision, Splenectomy for fulminating episode of essential thrombocytopenic purpura, 229
Stains, hematoxylin and eosin,Papanicolaou, Evaluation of cytologic examination of body secretions in diagnosis of cancer, ed. 755
Standardization program, Treatment of casualties in atomic disaster, ed. 371
Stimulation, of intrathoracic vagi, Effect of, of lower intrathoracic portion of vagus nerve on cardiovascular system of dogs, 23
Stomach, cardiac end of, Results of radical surgical extirpation in treatment of carcinoma of esophagus and cardia, with 5 year survival statistics, 46; Physiological mechanism for death in massively bleeding peptic ulcer, 433; Importance of esophagogastric valve mechanism in surgery of, and esophagus, ed. 502; Late results after total gastrectomy, 519; Consideration of present status of simple suture in treatment of acute perforated gastroduodenal ulceration, 581; diagnosis of disease in, Cytologic patterns in benign and malignant gastric esophageal lesions, 733
Surgery, postoperative care, Asphyxia by tracheobronchial secretions, 57; plastic, Arterial grafts, ed. 115; diagnosis, Need for greater accuracy in determination of operability, ed. 248; plastic, Nutrition of blood vessel grafts, India ink injection study of their vascularization, 311; peroperative examinations, Value of peroperative manometric and roentgenographic examination in diagnosis of pathologic changes and functional disturbances of biliary tract, 385; Influence of anesthesia, operation, and obstetrical delivery upon patients with adrenal cortical insufficiency, 455; Consideration of present status of simple suture in treatment of acute perforated gastroduodenal ulceration, 581; cardiorrhaphy, pericardiotomy, Penetrating wounds of heart, report of 81 cases, 605; preoperative treatment, Observations on use of artificially induced progestational state as preoperative adjunct to radical pelvic, 703; postoperative complications, Urologic procedures employed in diagnosis of urinary-vaginal fistulas, 709; Role of radiation and of, in uterine carcinoma, 715; Physiologic resection of right colon, 722

TAMPONADE, cardiac, Penetrating wounds of heart, report of 81 cases, 605
Test, antithrombin, Critical evaluation of, for venous thrombosis, 297
Testicle, Tumors of, irradiation therapy, 535
Thoracotomy, Thoracic cage closure after, or thoracoabdominal exploration, 365
Thorax, Thoracic cage closure after thoracotomy or thoracoabdominal exploration, 365
Thrombosis, venous, Critical evaluation of antithrombin test for, 297
Thyroid, Hyperthyroidism in pregnancy, 103
Tibia, Kuntscher nail in treatment of fractures of, and fibula, 189
Trachea, Pulmonary surgical salvage by bronchial resection, 347; Reconstruction of tracheobronchial tree with resection of lung, carina, and lower, experimental study, 570
Tracheobronchial tree, obstruction, Asphyxia by tracheobronchial secretions, 57
Tuberculosis, Pulmonary resection in treatment of, ed. 117
Tumors, Adenomatous polyps, of colon and rectum, challenge in cancer prophylaxis, 195; of testicle, irradiation therapy, 535

ULCER, gastroduodenal, Consideration of present status of simple suture in treatment of acute perforated, 581
Ulna, Employment of beaded wires in fractures of forearm, 200; Intramedullary nailing in presence of infection, experimental study in dogs, 727
Urethra, Treatment of urinary stress incontinence, with results of 117 patients treated by active exercise of pubococcygei, 179
Urinary tract, Bedside urological x-ray examination of severely injured patient, 693; Urologic procedures employed in diagnosis of urinary-vaginal fistulas, 709
Urine, incontinence, Treatment of urinary stress incontinence, with results of 117 patients treated by active exercise of pubococcygei, 179
Uterus, carcinoma of, Role of radiation and of surgery in management of, 715
Uterus cervix, Histopathology and cytology of cervix in pregnancy, 10; Cervix ring biopsy technique, 270; carcinoma of, Elimination of untoward radiation sequelae in treatment of, 539; Observations on use of artificially induced progestational state as a preoperative adjunct to radical pelvic surgery, 703

VAGINA, Cervix ring biopsy technique, 270; Urologic procedures employed in diagnosis of urinary-vaginal fistulas, 709
Valve mechanism, esophagogastric, Importance of, in surgery of stomach and esophagus, ed. 502
Vena cava, Portacaval shunting for portal hypertension, 443; Regeneration of liver in dog after partial hepatectomy, role of venous circulation, 491

WOUND healing, heat turbidity index and methylene blue reduction time of plasma, 577; Intramedullary nailing in presence of infection, experimental study in dogs, 727
Wounds, burn, Early management of severely burned patient, 273; Treatment of casualties in atomic disaster, ed. 371; Penetrating, of heart, report of 81 cases, 605
